Summary

Frontend Developer with academic and personal project experience in React, TypeScript, and UI development. I've worked on independent projects that simulate real use cases, including user authentication, routing, API integration, and responsive layouts.

Projects

Personal Project

CookSpace — Full-stack Recipe Platform   *2025*

- A full-stack recipe-sharing platform built with **React**, **TypeScript**, and **Next.js**.
- Implements **RESTful APIs**, built with **MySQL** and containerized with **Docker**.
- Features include recipe browsing, search, user registration/login, recipe creation/editing, write comments and password recovery via email.
- Frontend styled using **Tailwind CSS** with responsiveness and performance in mind (lazy loading, code-splitting).
- Automated tests with **Playwright**
- GitHub: github.com/AndreFNM/recipes-app

Personal Project

Company Dashboard — Employee Management App   *2025*

- A full-stack internal tool to manage employees, vacation tracking, and account details.
- Developed with **Next.js**, **React**, and **TypeScript**
- Authentication handled with **NextAuth**, data managed with **MySQL 8** and **Prisma ORM**.
- Modern and responsive UI using **Tailwind CSS**; development environment Dockerized for consistency.
- GitHub: github.com/AndreFNM/company-dashboard

Education

Lusófona University   *Porto, Portugal*

B.S. in Computer Science   *Oct. 2020 - Jun. 2024*

Udemy

React - The Complete Guide 2025 (incl. Next.js, Redux)   *2025*

Official Language Certification

English Language Certificate — B2 Level   *Issued: 2023*

- Certificate of English proficiency (B2 level in listening, reading, speaking, and writing).
